We Supply Canopies

OURS HAVE ELECTRIC LIGHTS

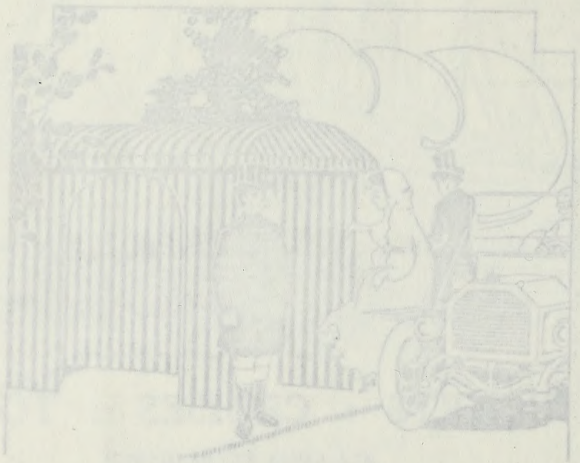

THIS is a special feature of our business—the supplying of outside canopies for Weddings, At Homes, Receptions or any function when and where they are wanted—Church, Home, Theater or Public Buildings. ¶ We also supply electric lights, matting, uniformed footmen, carriage checks—in fact everything that goes with this line of service. ¶ Our facilities are first class in every particular. All one has to do is to give the order and we do the rest without further annoyance or trouble in looking after the details of the work.

— INVESTMENT BONDS —

Investing Your Surplus

FREQUENTLY people find it quite a problem to invest their money in a satisfactory way. By "satisfactory" we mean an investment which is safe, which will yield a good rate of interest, and will involve no inconvenience. It is not always easy to find an investment which contains all these elements.

¶ We are always pleased to consult with anyone who has this problem to solve, and we aim to give the best advice we can, regardless of whether the inquirer decides to buy from us or not. We are in a position to offer a well diversified list of investment securities at all times. These include the highest grade municipals (some of them tax-free), public utility and industrial bonds, paying from 4 to 6%.

¶ Under our partial payment plan, securities can be bought and paid for in installments, suiting the purchaser's convenience. In the meantime the money paid draws interest at the full rate.

SHAKER HEIGHTS VILLAGE

15 MINUTES FROM PUBLIC SQUARE

1618452

SHAKER HEIGHTS VILLAGE will be the most beautiful home district in or around Cleveland.

¶ It is that now in the sections where development has already taken place.

¶ The improvements are the best that can be had, restrictions are rigid and long-lived, and every advantage has been taken of natural features — ravines, lakes, parks — to insure artistic home-making.

¶ And though you keep one automobile or several, the Rapid Transit railroad, with its fifteen minute running time to the Public Square, will enhance the value of your property and be a source of immense convenience to yourself and family.

¶ *We will be glad to discuss terms and prices.*

PREFACE

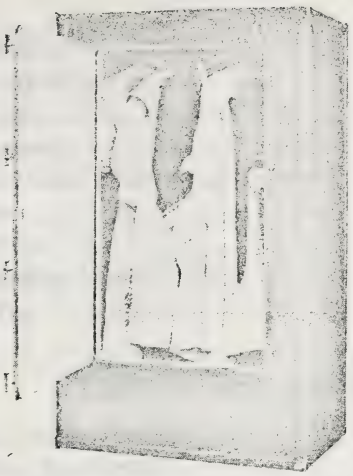

IN presenting this issue of the Cleveland Blue Book and Social Directory, the author and publisher is convinced that the work will prove more complete and useful to its subscribers than any previous issue.

All the features that have heretofore made the book valuable have been retained and several additions have been made.

This edition contains the names and addresses of prominent families, the names of clubs to which each man of the family belongs, the Alma Mater of each college graduate, and the names of the junior members of the family between twelve and twenty years of age, and the leading clubs of Cleveland. All this information is given in connection with the alphabetical list of names, street list, and the names of prominent people in 34 towns near Cleveland, giving the volume a high value from the standpoint of ready reference.

The author and publisher tenders her thanks to those who have made the present work possible by their subscriptions and assistance, and expresses the hope that the work will fully meet all requirements.

HELEN DE KAY TOWNSEND.

The Wardrobe will save you time, fur storage, cleaning and pressing. It will pay for itself in a few seasons by saving you a large percentage of these charges. They can also be built in your home.

EXPLANATORY

IN the following Alphabetical List, the names in italic type immediately below the names of a man and wife or a widow denote the woman's maiden name. The letters and figures following names denote the clubs, college degrees and year of graduation of the husband. The same principle is followed with regard to other names in the family. The prefix Junior signifies children between the ages of twelve and eighteen for girls and fourteen and twenty for boys.

Many requests have been made of the author to continue a list of former residents of Cleveland. This has been done with the view that it will prove of inestimable value in sending out invitations.

And The True Reason Therefor

INDEED, truly speaking, loving your hats is, and should be, very significant to all ladies of fashion. Husbands and sweethearts also are oftimes more concerned than they appear to be.

There is a vast difference between MERE hats and hats you truly love. To love your hats does not mean simply to pay liberally for them. But, after giving your precious time to their selection, to be ABSOLUTELY satisfied, to know that they are NOT mere conjectures, but masterpieces produced by master minds in a master shopp and of materials made by masters of the art, harmoniously combined in the most pleasing proportions, and scientifically conforming to the individual for whom designed, making absolute their correctness of style and workmanship, is the real love test.

These are the essentials necessary for truly lovely and smart hats, and no shopp in the country is equipped, qualified and able to offer all these essentials better than LANGER'S, importers of French Millinery. A true master shopp replete with art and skill in millinery.

THE advantage of saving part of one's income is so obvious that no argument is necessary.

The investment of savings is a serious matter, and should receive most careful consideration. Bonds are the best and safest form of investment.

The men of this organization have had many years' experience in the selection and distribution of bonds.

You can have the benefit of this experience by consulting them when you have funds for investment.

We have at all times a considerable number of issues of bonds — both municipal and corporation — from which to select.

"IMITATIONS"

YOU are in the theatre. At some moment during the performance some one kindly steps from the wings and delivers "a few imitations." These rest upon a twist of the mouth, a lift of an eyebrow, a hunch of the shoulder, an emphasized accent. You applaud them — sometimes — but you would applaud the ORIGINAL a hundred times more.

Leadership cannot be duplicated. It is always emphasized by imitation. Imitations are necessarily superficial, seldom as much as skin deep.

The history of White Motor Cars is one of origination, proving, introduction—and being imitated.

Months ago the latest White cars, with their finally-perfect streamline bodies with the center cowl absorbing the conventional back of the front seat, offered inspirations for imitations.

The features which you SEE are being imitated, just as the stage imitator copies one or two prominent characteristics of the star whose leadership is so firmly established that an imitation is recognized.

It is one proposition to buy something because it looks a little bit like another.

But every standpoint of value comes into consideration when you select that which has established the principles which invite imitation.

The White body, IN ITS COMPLETENESS, makes made-to-order automobile bodies unnecessary. Within that body, however, is the MECHANICAL completeness, which justifies the external beauty.

And there, after all, is the true standard of value. Looks, without SERVICE, would be an imitation of what you want.

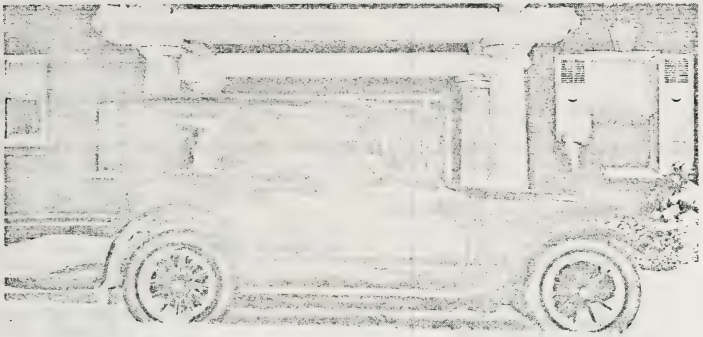

Leadership must and does create value.

Imitation need create nothing. It needs but wait.

The selection and purchase of a White Motor Car signifies that you secure the tangible value involved in long years of experience, the best engineering ability, and a consistent manufacturing policy.

And that you own and drive the acknowledged leader—the car which sets motor car fashion for America.

THE WHITE COMPANY, *Cleveland*

"THOROUGHBRED"

IN THE good old days your grandfather had his work horses, and he had a horse that was driven to the buggy or spring wagon. But for the times when grandfather put on his long-tailed coat and his beaver hat, and grandmother donned her dolman and her hoopskirt and tied her bonnet under her chin to go visiting, or to go to church—

Why, then, it was the team of thoroughbreds, and the jingling harness, and the swaying family carriage.

There was pride—there was established position—in having thoroughbreds to drive.

Grandfather's day of family coach and prancing thoroughbreds is gone.

But today it means just the same to own a thoroughbred as it did then.

There are good automobiles, there are everyday automobiles—just as there were work horses and everyday horses. For their purpose and in their place they are needed just as the horses were.

And now, as then, there are few thoroughbreds.

The owner of a White Motor Car knows he has a thoroughbred.

He has a car which has stamina and class equal to its handsomeness.

People on the street turn to look at him and his White Car, just as they turned to look at grandfather in the family coach behind the spanking team of thoroughbreds.

The choice of thoroughbred horses was narrow.

The choice of cars of class is even narrower.

When you select The White you know you are choosing a car which, like a thoroughbred horse in the old days, you will own and keep for years and years.

You will always be satisfied with it; you will always be proud of it—other people will always envy your possession of it. Because it is, as it always has been, a thoroughbred.

Street List

In locating a street number it must be borne in mind that Euclid avenue is the dividing line between north and south on the East Side, while Lorain avenue is the dividing line on the West Side. Ontario avenue marks the city's dividing line east and west.

The numbers on cross streets abutting on St. Clair avenue are 1300, on Superior avenue 1500, on Payne avenue 1700, on Euclid avenue 2000, on Prospect avenue 2050, on Carnegie avenue 2086, on Cedar avenue 2100, on Central avenue 2300, on Scovill avenue 2500, on Woodland avenue 2600, on Broadway 3500. On the West Side the numbers on Detroit avenue are 1400, on Franklin avenue 1600, on Lorain avenue 2000. This will give a key to the numbers on the streets running north and south.

Streets in various well-known sections have been listed under districts, i. e., streets in Wade Park district will be found under the heading of Wade Park District. In Euclid Heights, under that division. The abbreviation E. C. will follow all streets that are in East Cleveland.

PRINTING is an art long and favorably established as the handmaid of literature, the helpmate of commerce. For without the suitable type presentation of any message, be it of Bible or booklet, leaflet or volume, how few would ever hear it and be moved unto action

THE GARDNER PRINTING COMPANY

in the Caxton Building at Cleveland employs every facility for the complete satisfaction of its clients

Our Blue Book

Connects up EVERYMAN'S good will with the troubles of THE OTHER FELLOW (big or little) at low cost and to good effect

Four thousand thoughtful people were listed there in 1913-14. Their gifts helped 50,000 fellow citizens. Hundreds have been enrolled since.

"FEDERATED FRIENDS OF MAN" these donors are called.

Their "good-will dollars" in 1913-14 totaled $90,000 more than in the preceding year.

Through "team work in doing good," these dollars did better work, for more needy people, at lower cost, than ever before.

The possibilities of such community service increase day by day. Many more "federated friends of man" and many more "good-will dollars" are needed.

Your cooperation in this work of making Cleveland in truth the "City of Good Will" would be of great assistance now.

Merely inclose your check or greenback with your card in an envelope, and mail it, with indication of your wishes.

Your gift is put to work at once, and your name is added to the list of "federated friends of man" in our Blue Book.
